

Addendum to Health & Safety Policy Statement

The health & safety of our staff, contractors and visitors is Rabbit Group's highest priority. We employ the services of specialist consultants to provide technical expertise. Key elements of our system include:

- Our Health & Safety Policy, which is the backbone of our system
- Risk Assessments for all areas of the business, which are reviewed annually as a minimum
- Operational procedures for key tasks identified in risk assessments
- Training for all of our staff in relevant areas of health & safety, and a training register to ensure staff training is up-to-date
- Local policies and procedures including lock-out, permit to work, confined spaces etc
- Effective communication methods, including regular Health, Safety and Environment Committee Meetings and Senior Management Meetings, in which H&S is always the first agenda item
- A programme of occupational health checks for all of our staff
- Accident and incident reporting and investigation procedures
- An Emergency Plan
